OCS Community of Interest Design Objectives

● Collaborative one-stop shop for OCS multi-phased programs in support of pre-deployment training courses for the total workforce with emphasis on the non-acquisition community and Joint Force Commanders.

● Link OCS Stakeholder portals, joint training, professional military education and policies to meet OCS knowledge management objectives.

● Synthesize content and training resources gathered across DoD to close OCS training gaps.

● Facilitate OCS life-cycle management objectives to include OCS courseware maintenance and the collection of meaningful metrics to measure the effectiveness of OCS training development and delivery

Course Conclusion

Successful operational contract support is the ability to orchestrate and synchronize the provision of integrated contract support and management of contractor personnel providing that support to the joint force in a designated operational area.

You have successfully completed the Introductory Operational Contract Support (OCS) Commander and Staff Course.

Now you are able to:
- Identify the roles and responsibilities of **DoD**, joint, and service commanders and staffs as it relates to operational contract support
- Recognize key contract support integration principles
- Recognize key contractor management principles
- Define the five steps of the OCS process

We strongly recommend that you subscribe to the   Operational Contract Support (OCS) Community of Interest

Contractors supporting deployed forces have highlighted the need for military leaders to manage contracted support. This COI supports this effort. <click here>
